Population in Slums

2917. SHRI RAINI RANIAN SAHU : Will the Minister of URBAN DEVE-LOPMENT be pleased to state:

(a) what is the total percentage of country's population that lives in slums as on 30th November, 1994;

(b) what is the total population in Metropolitan Cities like Calcutta, Mum-bai Bangalore, Madras and Delhi that lives in slums as on 30th November, 1994;

(c) whether life in slums is very un-hygienic and is one of the causes of outbreak of plague epidemic of last three months; and

(d) if so, what steps Government propose to take to check growth of slums in the country ?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT (SHRI P. K. THUNGON) • (a) and (b) No systematic survey of slums has been conducted. However, it is estimated that about 21.5% of urban population may be living in slums. As per TCPO estimates, the slums population in 1991 in the cities of Calcutta, Mumbai, Bangalore, Madras and Delhi was 3.59 million, 4.31 million, 0.43 million, 1.72 million and 2.63 million respectively.

(c) and (d) Dedicated buildings, over-crowding congestion, lack of civic amenities like safe drinking water supply, sewerage drainage, etc. are the characteristics of slums. Ministry of Urban Development does not have any specific information on the causes of spread of plague.

Both preventive and curative steps have been initiated by the Government from time to time. As preventive measures, the small and medium towns are developed to check migration to major cities. Similarly, satelite towns are developed around the major metropolitan centres to hold the population. As far curatives steps, physical facilities are provided under the State sector Scheme of Environmental Improvement of Urban Slums and social services are provided under the Centrally sponsored Scheme of Urban Basic Services for the Poor. Similarly, employment opportunities for the poor are created under the Scheme of Nehru Rozgar Yojana.
